

ALTAF ARSHADHUSEN MULLA

MECHANICAL ENGINEER

PHONE | (+91) 9011176782
EMAIL | mullaaltaf111@gmail.com
LOCATION | Kolhapur, INDIA
EXPERIENCE | 10 Years 0 Month

Key Skills

- Production Planning Control
- Production Supervising
- Material Requirement Planning
- Production Scheduling
- Manufacturing
- Daily Production Planning
- Process Handling
- Quality Control
- 5S System
- NDT Inspection
- Purchase
- Material Procurement
- Inspection
- QA

Certification

- DEGREE IN MECHANICAL ENGINEERING
- DIPLOMA IN MECHANICAL ENGINEERING

Profile Summary

Result oriented professional with 10 Years of experience in Production, Planning, control & Scheduling, Order management with deep knowledge of technical terms of manufacturing industries with working knowledge of Casting Machining such as all types of Valves, centrifugal Pumps, single & multi-stage Split case pumps, Covers etc. On Machines like TREVISAN, VTL, VMC, HMC, HBM, DRILL M/C.

Work Experience

Production Engineer

Walchandnagar Industries Limited Walchandnagar

04/2006 - Present

Production Planning & Control (PPC) Prepare production schedules based on orders. Ensure availability of raw materials (SS sheets, castings, shafts, motors). Coordinate with purchase, design, and stores departments.

Manufacturing Process Management Oversee machining processes like: Turning (lathe) Milling Drilling Balancing of rotating parts Ensure proper fabrication of: Basket (perforated drum) Casing Shaft assembly.

Assembly & Installation Supervise assembly of: Basket, spindle, bearings, braking system Motor and drive system Ensure correct alignment, vibration control, and fitment.

Testing & Trials Conduct trial runs of centrifugal machines. Check: Load performance Noise & vibration levels Safety systems (brakes, covers) Co-ordinate with clients for FAT (Factory Acceptance Test).

Process Improvement Reduce manufacturing cycle time. Improve productivity and reduce rework. Implement lean manufacturing / 5S practices.

Maintenance Coordination Ensure proper upkeep of shop floor machines. Plan preventive maintenance for CNC/lathe machines.

Team Management Supervise operators, welders, fitters. Allocate work and monitor performance.

Production Engineer

Western precicast private limited kupwad sangli

03/2017 – 03/2026

Working in Machine Shop and able to handle all production activities to achieve Daily/weekly & Monthly production targets with keeping regular reviews with production team fulfilling through work load distribution. # Monitor Production plan vs. Actual Production as per defined cycle timings.
Monitor Quality Parameters as per the requirements of Products.
Coordinate with concerned Departments for Designing of Jigs, Fixtures, and tooling for cycle time reduction in plant.
Manpower Planning.
Give training to supervisor & operators to solve in-process production queries.
Reduce setup timings & Machining timings through process improvements
Ensure and follow the all safety procedures across the shop floors & Maintain Housekeeping with following 5S Standards.
Control of rejections & reworks by necessary corrective actions.
Monitoring & control of cutting tools, consumables, spares to reduce the overall consumable cost.
NDT test Liquid penetration test (LPT) & Visual Testing(VT) Inspection carryout.

Junior Engineer Quality Assurance

Sanika Technology

12/2015 - 01/2017

To check the component 100% on CTQ basis and Find the solution on coming the quality problems.

Education

B.E. – Mechanical - 2015

Shivaji University, Kolhapur

Grade - 73.23%

Diploma – Mechanical - 2012

MSBTE Mumbai

Grade - 70.6%

10th – 2009

Maharashtra, Marathi

Grade - 84.92%
