* Sales Executive

PROJECTS

Syneos Health

18 Months

Developed and enhanced SAP ABAP objects including reports, DDIC objects, Smart Forms, BAPIs, and enhancements. Utilized ABAP on HANA concepts such as optimized Open SQL and HANA-aware coding techniques. Improved application performance through SQL optimization, runtime analysis, and efficient database access. Collaborated with cross-functional teams in an Agile environment to deliver business solutions.ed and enhanced SAP ABAP objects, including reports, Data Dictionary objects, Smart Forms, and custom enhancements aligned with business requirements. Collaborated with functional consultants to analyze requirements, troubleshoot issues, and deliver optimized SAP solutions using ABAP, Open SQL, and SAP GUI.

ABAP calculator program

1 Months

- Designed and implemented a simple calculator program in SAP ABAP with a user-friendly selection screen.
- Implemented basic arithmetic operations including addition, subtraction, multiplication and division via ABAP selection screen.

Village Transportation System App

12 Months

- Worked on objectives and optimization strategies for a vehicle transportation system to improve efficiency, safety, and

sustainability.

- Analyzed problem statements for rural transport services and proposed approaches involving route optimization algorithms, real-time data analytics, and intelligent scheduling.
- Contributed to quality checks and reporting across the project lifecycle.

EDUCATION

2024 B.Sc | Computer Science and Technology
SAVITRIBAI PHULE PUNE UNIVERSITY
Grade A - 6.84/10

2020 12th
Maharashtra, English
Marks - 64.50%

2018 10th
Maharashtra, Marathi
Marks - 58%

EXTRA-CURRICULAR ACTIVITIES

College Project

Worked on the Village Transportation System App focusing on route optimization, real-time data analytics, and scheduling to improve transport efficiency in rural areas.
